About

In theory, starting a cafe sounds like a fun idea, but it's no small investment and there is no single, easy answer to this question. Instead, the cost of a coffee shop ranges depending on the location, size, and design of your shop.

Coffee has long been a staple of American life and the trend shows no signs of slowing down anytime soon. That's why it's no surprise that coffee shops represent the fastest growing segment of the food industry, with a 7% annual growth rate lending itself to the coffee shop market being projected to reach \$237.6 billion by 2025. These numbers look promising and they pose the question, "Who wouldn't want to open a coffee shop when the industry is booming in such a major way?"

However, before you start placing bulk orders for aprons and portafilters, remember that joining this growing league of coffee shop owners may take more time, money, and resources than you initially think. [Learn more about how to open a coffee shop with the best chance of success and profitability.](#)
